The Chairman, ADWF delivered a lecture on: Parenting & Technology and what constitutes the good Life.

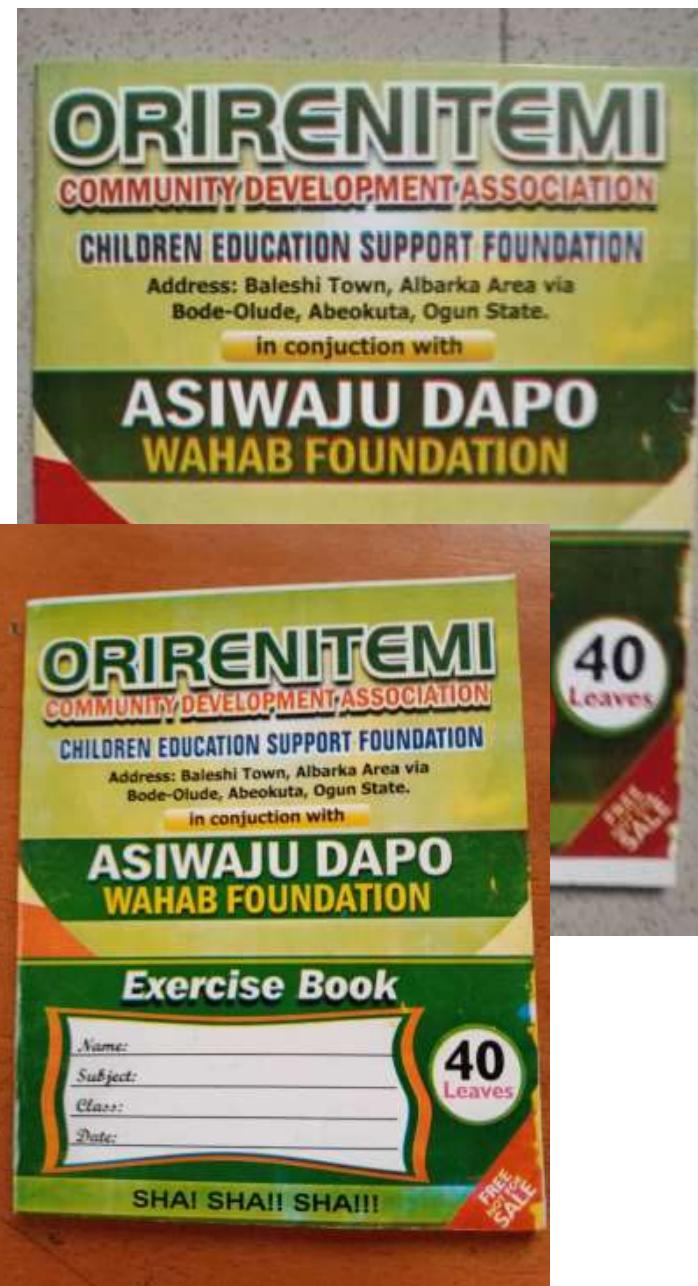

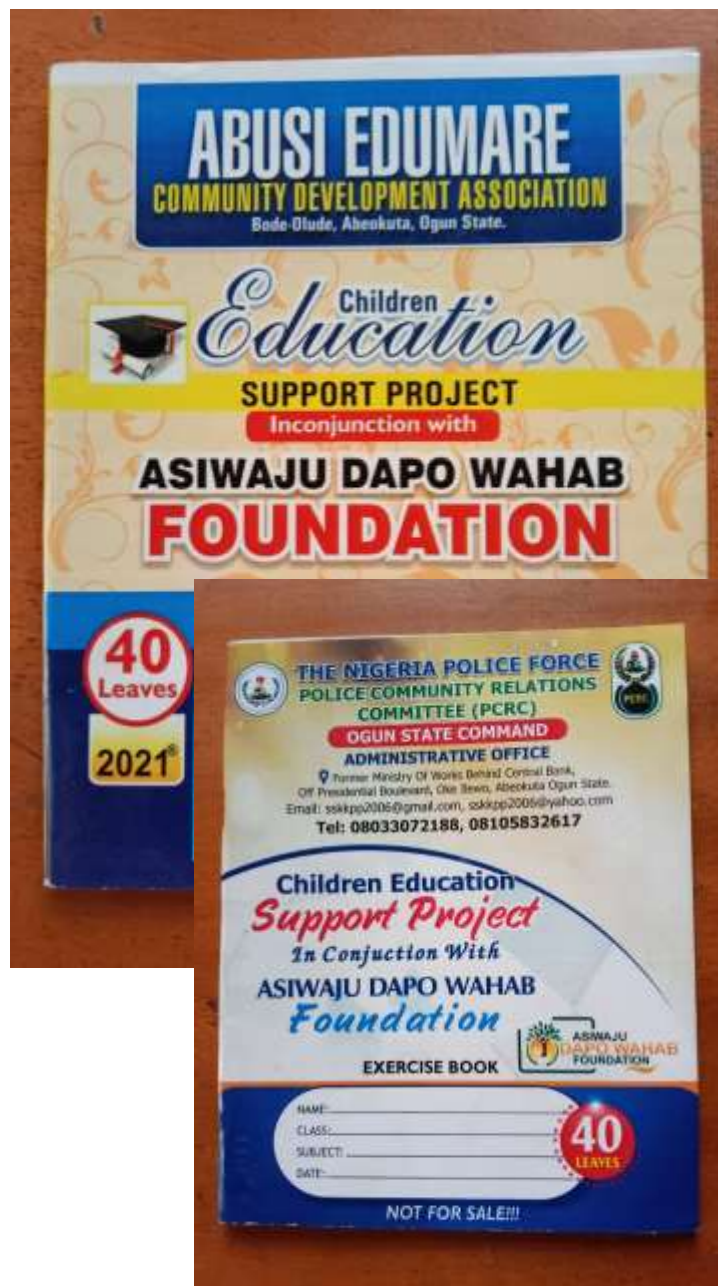

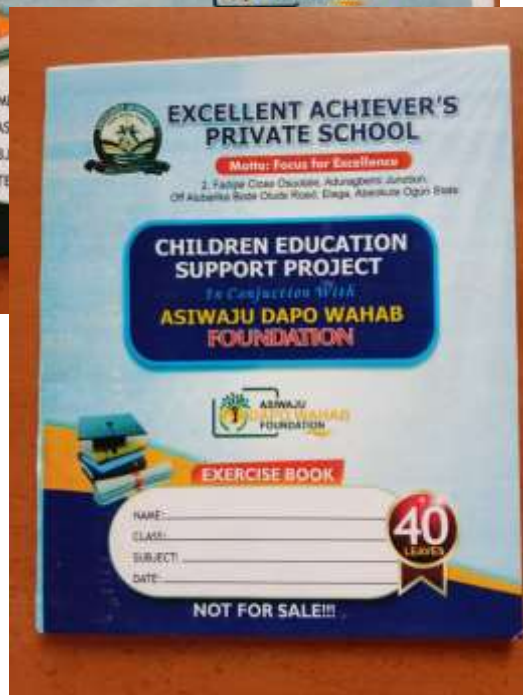

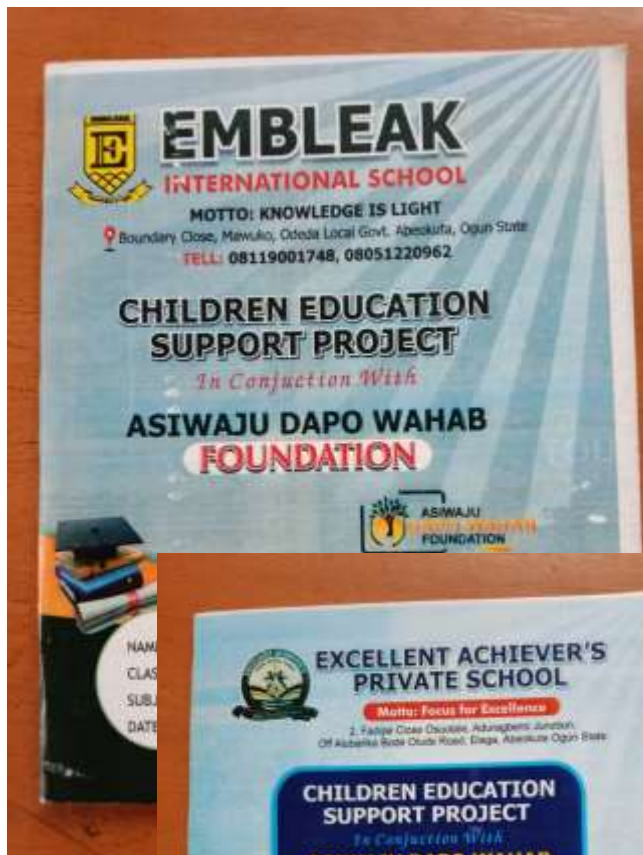

While delivering the lecture He maintained that ' Happiness' is an end itself and what gives us happiness is good life, as a resulting of this parents should choose a better parenting style and ensure that technology does not have negative impact on their children.

He also made a special reference to consequences of poor parenting and the quest for money by the teenagers which is very alarming.

Attentions of the parents were drawn to the old Biblical Dictum: that the love of money is the begining of all evil"" .
